Donview all-in-one interactive flat panel embraces collaborative learning experience with 4K UHD display, anti-glare glass, inbuilt stereo speakers, multi-point touch and simultaneous multi-screen display.

Product Features

► 4K UHD Display

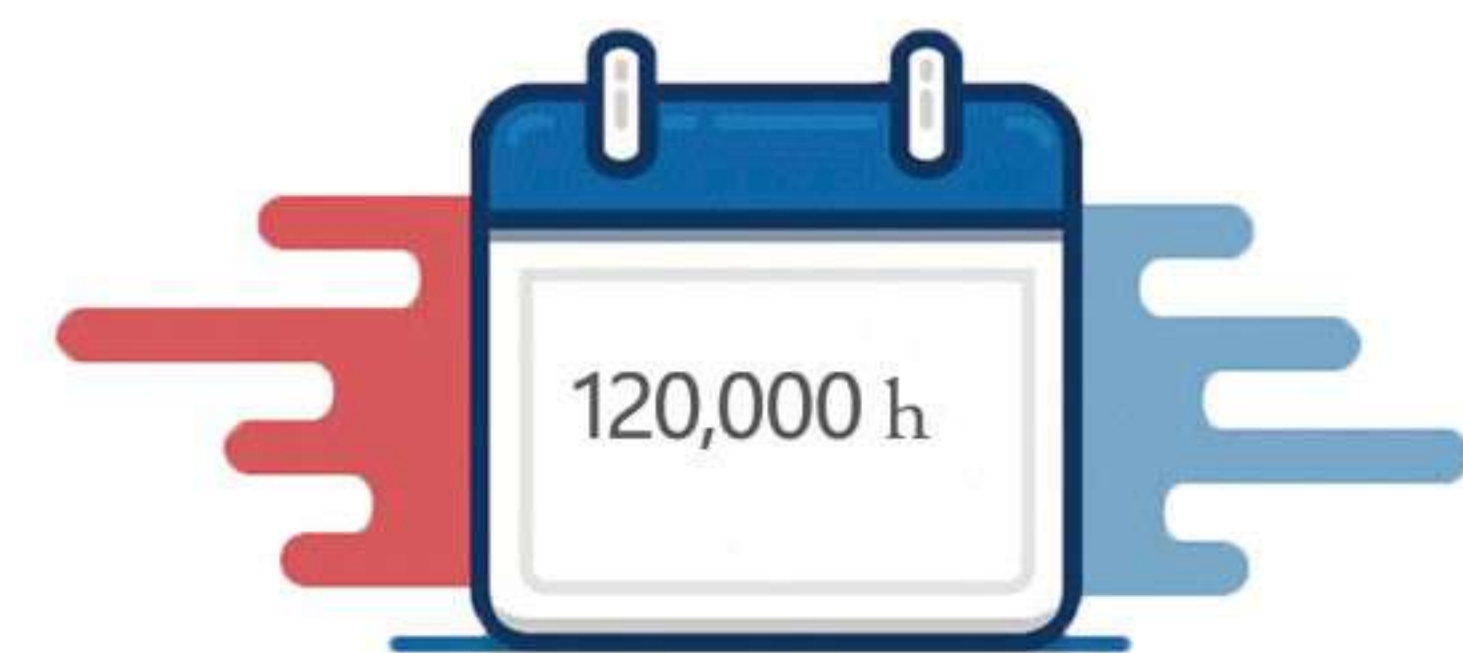

The highly accurate interactive panel with 4K Ultra HD resolution provides incredibly stunning visuals and responsive handwriting experience.

4K Ultra HD

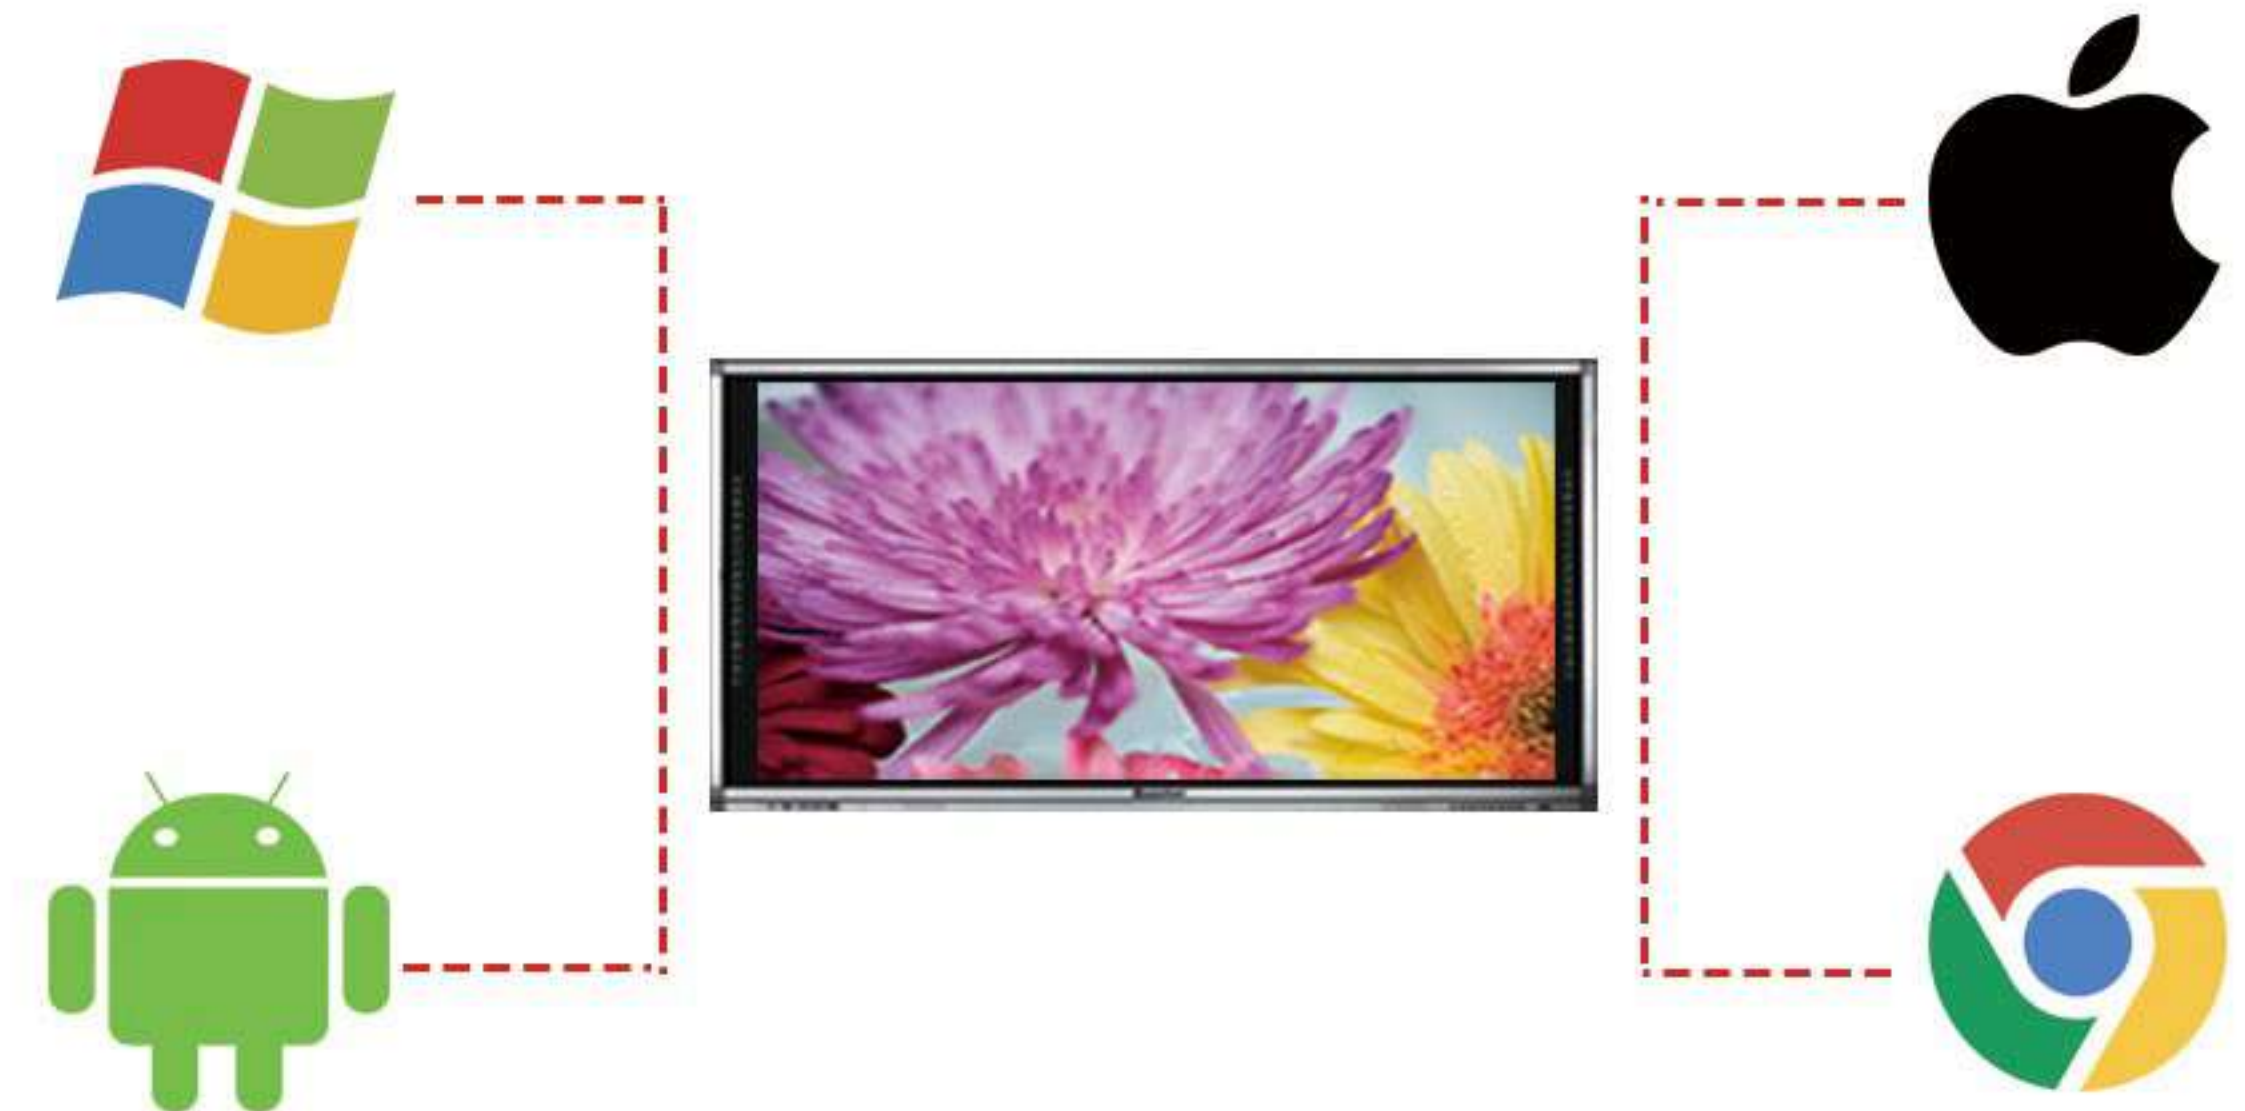

► Long Service Life

The best-class components guarantee the service life of the screen.

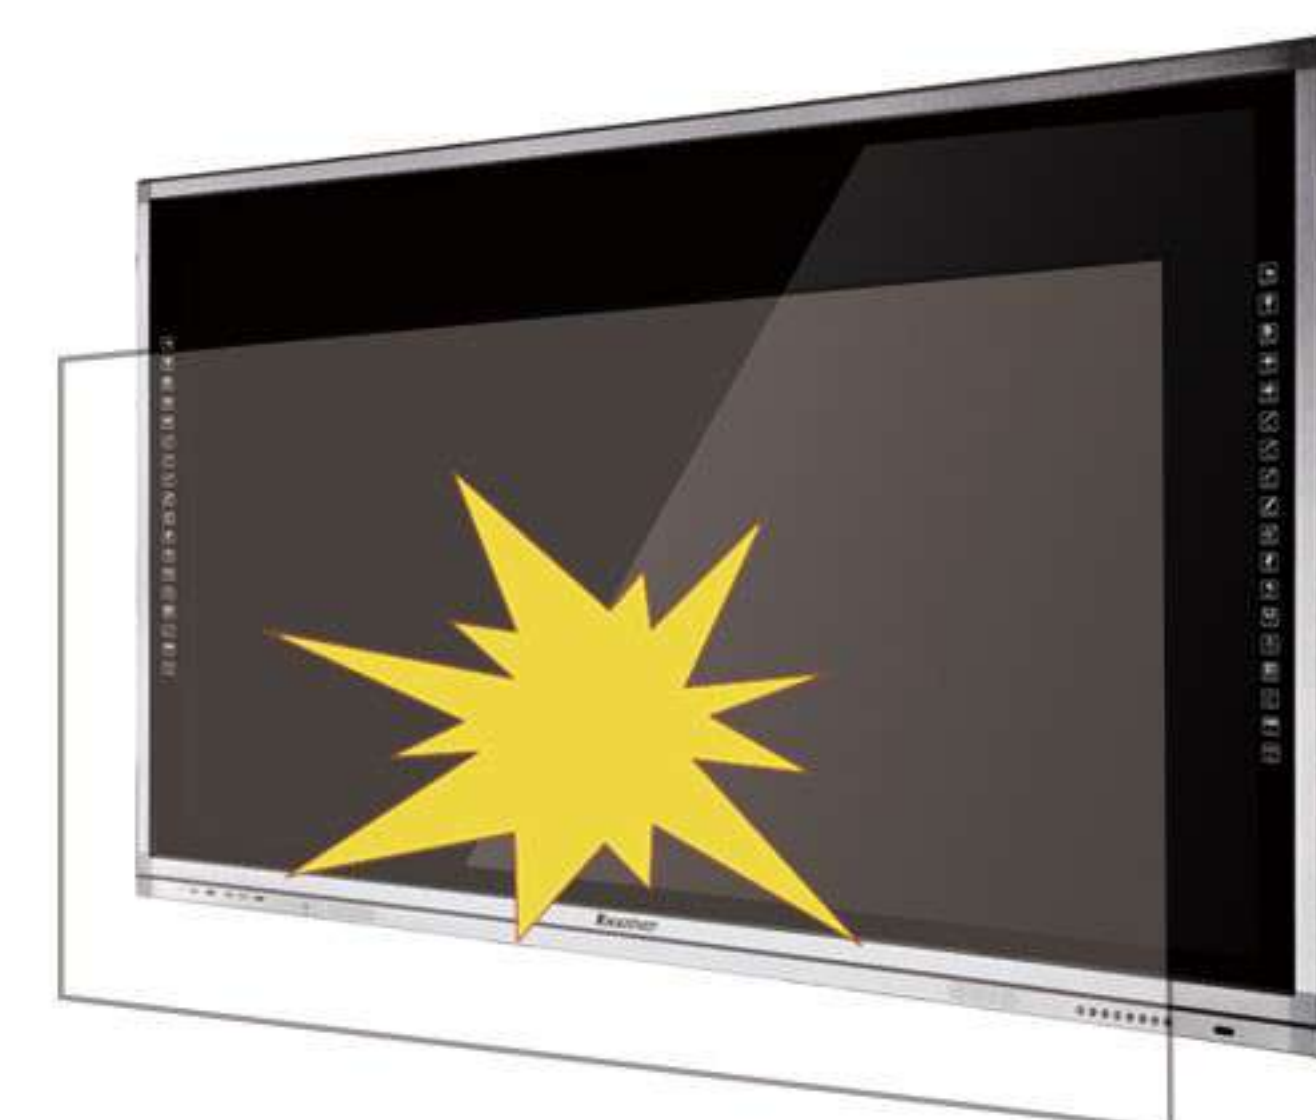

► Compatibility

Compatible with Windows, Android, Mac, Chrome.

► Smooth and Anti-glare Surface

The super smooth surface provides a natural and fluid writing experience and is protected by impact and scratch resistant, anti-glare glass.

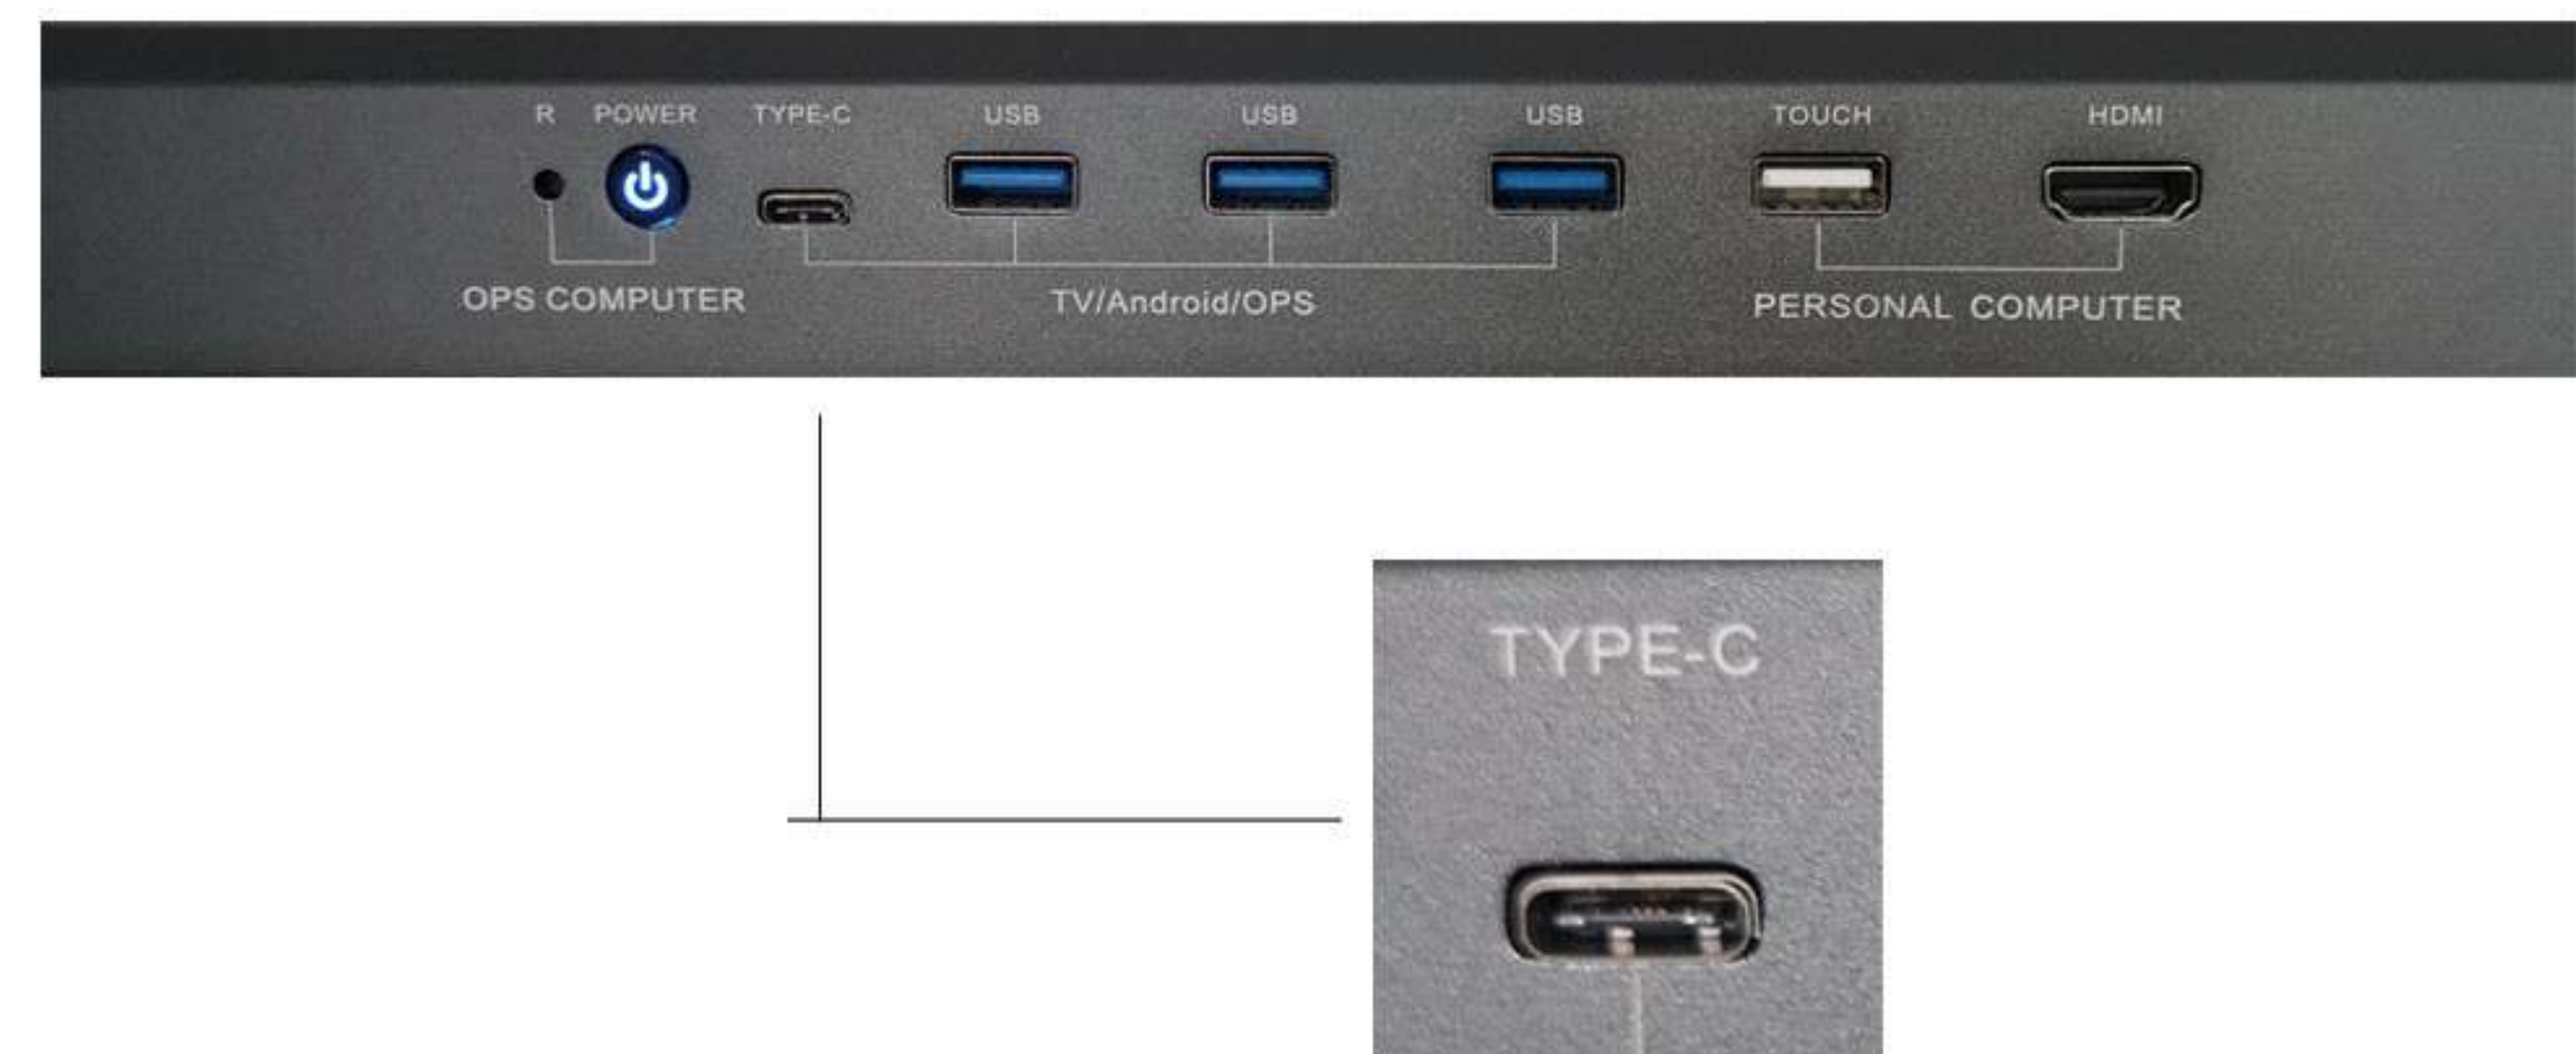

► User-friendly Design

Shortcut Keys on two sides enable hassle-free access to the most frequently used tools and simultaneous operation from two presenters.

► Front Interface

Multiple input/ output ports for HDMI, auto-recognition USB 3.0*3 and Type-C.

► Optional OPS Computer System

With the inbuilt OPS interface, the unit can be easily upgraded to include an internal computer system. Computer specification is customizable.

► Energy Efficient

Shift to ECO mode for energy saving and re-wake the screen with a simple touch.

► One Touch Power On/Off and Switch OS

Turn on/ off the panel or switch the operation system between Windows and Android with a single touch.

► Customizable Mounting Solutions

You can either mount the screen using the wall mount or on one of mobile stand to accommodate your need.
